

Our Goals

Our goal is to make academic planning simple and effortless. With Open Planner, students can upload their syllabi and immediately create a calendar with all major school dates, including exams, assignments, and other important events. This saves time, reduces stress, and ensures that students stay on top of their academic obligations.

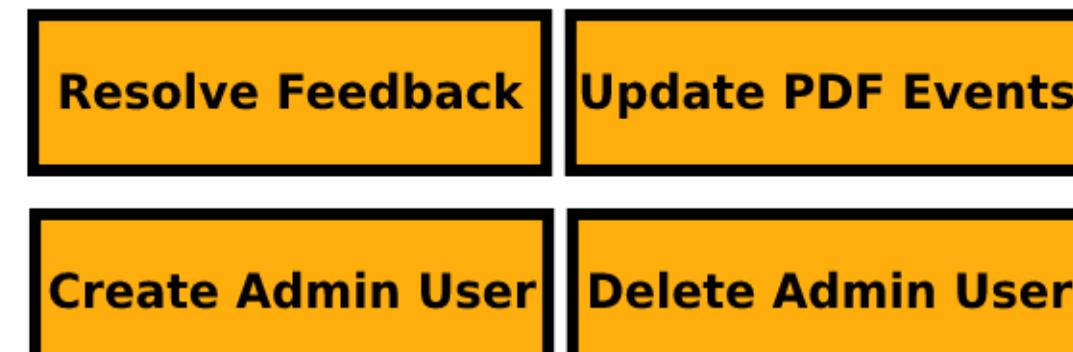

Use Cases

Student

Admin

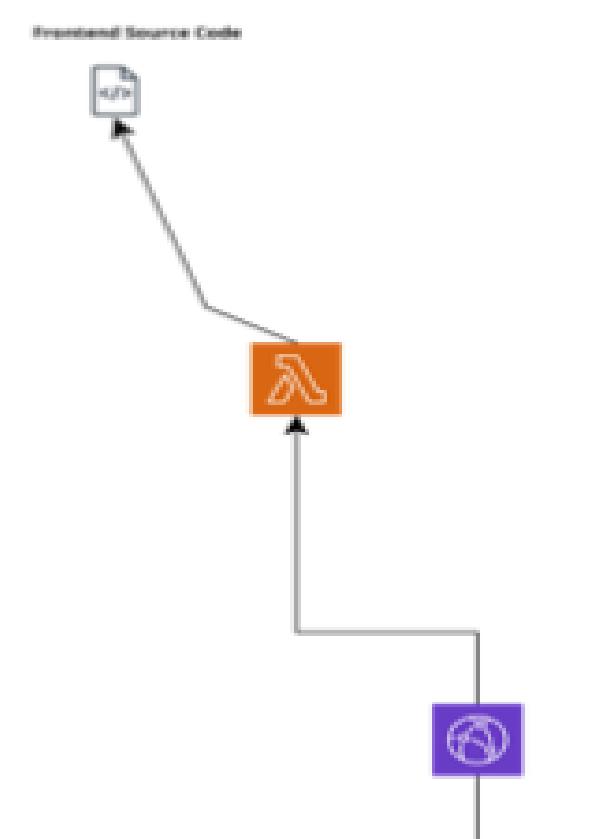

Overview

The screenshot displays the Open Planner application's user interface. It includes:

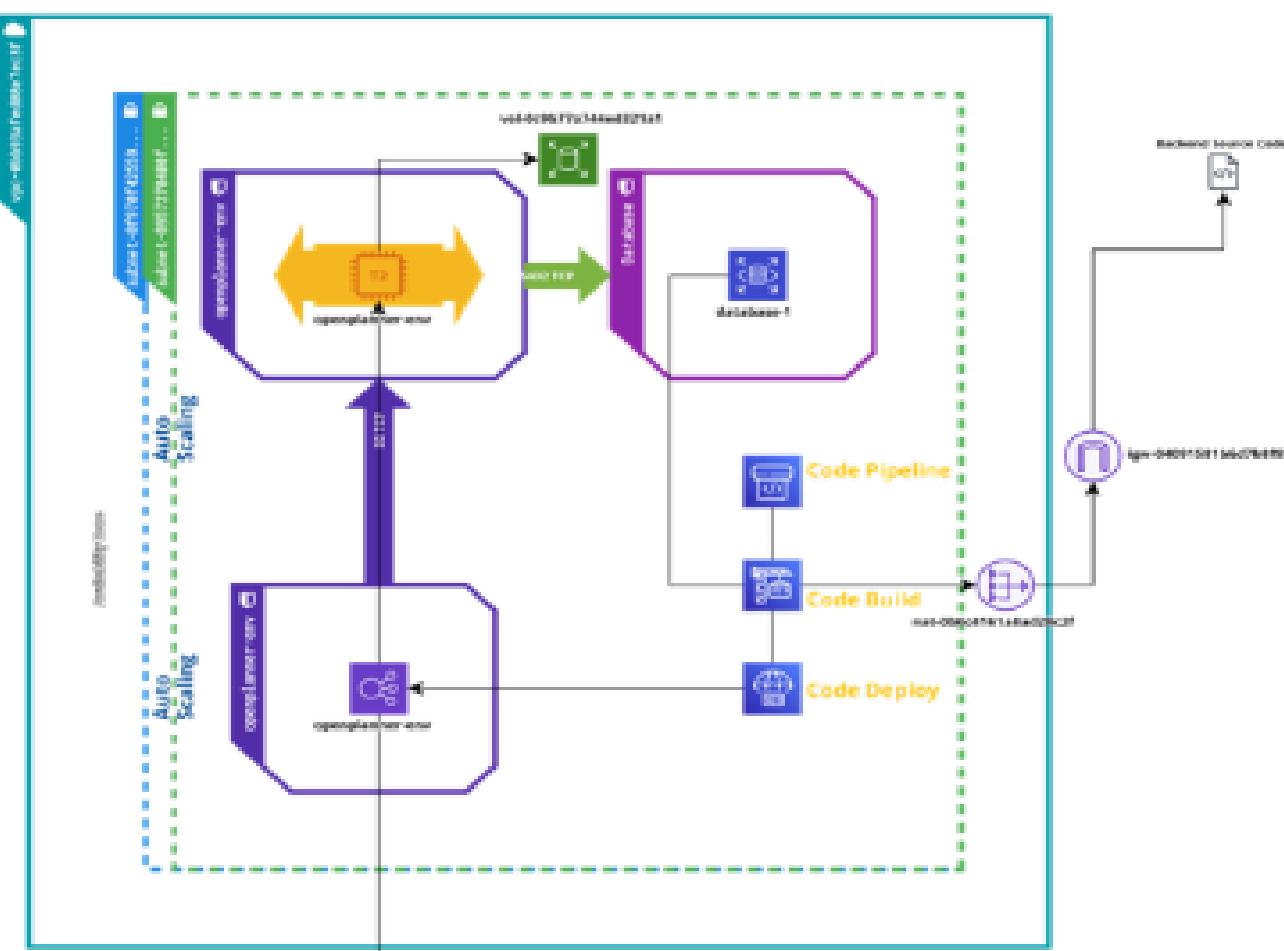

- Open Open-Planner.com:** The homepage featuring a university campus background and the text "Open Planner School Scheduling Made Easy".
- Upload Syllabus / Filter Calendar:** A section for uploading syllabi and customizing a calendar. It shows a file input field for "Syllabus-COSC 40943-Fall2022 v1.1.pdf" and a "CHANGE COLOR" button.
- Instructions on How Open Planner works:** A section titled "HOW IT WORKS" explaining how the platform uses machine learning to generate a customized calendar from uploaded syllabi.
- Calendar is Generated:** A section showing a generated calendar for April 2022, with specific dates highlighted in red.
- Sign In / Create an Account:** A login and sign-up form with fields for Username, Email, Password, and Confirm Password.
- Filter/Add New Syllabi:** A section for managing syllabi, showing one entry for "Syllabus-COSC 40943-Fall2022 v1.1.pdf".
